With Trail Update

Example : Portage Lakers Trail Update

New Message

To:
Cc/Bcc, From: Fpeitech@gmail.co
Subject:

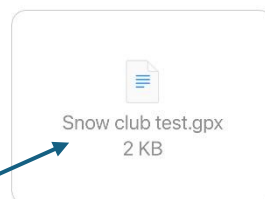

Tap SEND

after filling in

Email and

Subject

Notice: file automatically inserts here

In effort to ensure accuracy, we will only be accepting data from **CLUB OFFICERS** and **TRAILMASTERS**(or their designee). If this is an issue for your club, reach out to us.

Please create plots in one direction only. It is also preferred that you ride and name each trail separately so that future edits are easier. Note: once you record and save a plot, those files will be listed in your profile under “My Rides”. Email Trails@mesnow.com with any questions/concerns.
